

# NEW SHARED 4GEE PLANS FROM EE

## SHARE A 4GEE PLAN, SAVE A PACKET

Share a 4GEE plan with up to four other people and up to five devices. It's a simple, convenient and great value way to get 4GEE – with loads of shareable data and just one bill.

## SHARE AND SHARE ALIKE

We're always working on new ways to give our customers access to the content they love. Which is why we're now launching a totally new type of plan – Shared 4GEE Plans.

With a Shared 4GEE Plan you can now share one plan with up to four friends or family, or even with tablets and laptops. You all get unlimited minutes and texts, and a pool of up to 20GB of shareable data, and you get one monthly bill for everything.

## HOW IT WORKS

Sharing is good. And simple, too. Here's how it works:

**Step one:** Choose your 4GEE phone plan.\*

24-MONTH PLANS	£31	£36	£41	£46	£51
<b>Standard Data</b>	N/A	750MB	1GB	3GB	5GB
<b>Summer Data Promotion</b> (for new customers who sign up for a 24-month phone contract before 30th September 2013)	1GB	1.5GB	2GB	10GB	20GB
<b>Calls &amp; texts</b>	Unlimited calls and unlimited texts				

**Step two:** You can add people or extra tablets or laptops at any time, from as little as £5 per month. People don't need new 4G-ready phones, either. While older phones won't be able to use 4GEE, they'll work on our 3G network – the UK's biggest – just fine.

TYPE	SIM ONLY	WITH A 4G DEVICE
<b>Phone Sharers</b>	£12 (12 months) £17 (30 days)	From £22 (24 months)
<b>Tablet and Laptop Sharers</b>	£5 (24 months) £8 (30 days)	£11 (Dongle and Mobile Wi-Fi) £26 (Tablet)

## EVERYTHING YOU NEED TO KNOW ABOUT SHARING YOUR PLAN

Shared plans are a great idea for a whole load of different reasons:

### Better value than separate 4GEE plans

You pay less for a Shared 4GEE Plan than you would if everyone was on a separate 4GEE plan, or if you had separate plans for all your devices. For example:

#### A family with four people with four devices on different plans and one data SIM:

- Current plans: varying minutes totalling 1,450, unlimited texts, varying data plans totalling 4.5GB: £150 per month
- Shared 4GEE: unlimited minutes, unlimited texts, 20GB shared data: £112 per month
- **Saving £38 per month – £912 over 24 months**
- *Plus: New 3 x 4G Handset\*, Clone Phone Lite, EE Film, 3 x Inclusive Content Add-On, EE Wi-Fi*

#### A couple with two phones on two plans:

- Current plans: 1,800 minutes, unlimited texts, 2GB data: £82 per month
- Shared 4GEE: unlimited minutes, unlimited texts, 10GB shared data: £68 per month
- **Saving £14 per month – £336 over 24 months**
- *Plus: New 2 x 4G Handset\*, Clone Phone Lite, EE Film, 2 x Inclusive Content Add-On, EE Wi-Fi*

#### Individual with multiple devices and plans:

- Current plans: 1,200 minutes, unlimited texts, 5.5GB data: £88 per month
- Shared 4GEE: unlimited minutes, unlimited texts, 20GB shared data: £74 per month
- **Saving £14 per month – £336 over 24 months**
- *Plus: New 2 x 4G Handset\*, Clone Phone Lite, EE Film, 2 x Inclusive Content Add-On, EE Wi-Fi*

#### Small business with four devices:

- Current plans: unlimited minutes, unlimited texts, 2GB data: £140 per month
- Shared 4GEE: unlimited minutes, unlimited texts, 20GB shared data: £121 per month
- **Saving £14 per month – £336 over 24 months**
- *Plus: New 4 x 4G Handset\*, Tethering & VOIP, Fast Track Service, Clone Phone Lite, EE Film, 4 x Inclusive Content Add-On, EE Wi-Fi*

## ADD PEOPLE AS YOU GO

You don't have to set everyone up at the same time. You can add people as and when their previous contract finishes.

## NEED ANYTHING ELSE? JUST LET US KNOW:

## YOU CAN'T GO OVER YOUR DATA LIMIT

It's impossible to go over your shared data limit by accident. We'll send everyone on the plan a text when your data is running low and another one when it has run out asking if they want to buy a data add-on. Then another text once the data's been added. Data add-ons last until your data refreshes on your bill date.

DATA ADD ON	COST
50MB	£3
500MB	£6
2GB	£15
4GB	£20

## YOU CAN SHARE WITH TABLETS AND LAPTOPS, TOO

You can add devices to your plan, too. Say you're streaming a film – if you add your phone and tablet to your shared plan you can switch from one to the other and all the data comes from the same pot.

\* Upfront cost may apply depending upon handset chosen
