SUPERFAST AND SUPER-FLEXIBLE

PAYG 4GEE Mobile Broadband means you can get superfast 4GEE internet access on your tablet or laptop whenever you like – and only pay as you use it. 4G means that streaming films, accessing the internet or downloading e-mail and apps is unbelievably quick, (like using your standard broadband at home¹), and you don't have to rely on finding a Wi-Fi hotspot.

GET CONNECTED

A great way to enjoy superfast 4GEE on your tablet or laptop is with a Mobile Wi-Fi device – like the Alcatel Y800 which comes pre-loaded with 2GB worth of data. It's like being surrounded by your own travelling 'bubble of 4G'. You can connect up to 10 Wi-Fi compatible devices at a time² (like a tablet, laptop, smartphone or other gadgets with Wi-Fi like a camera, games console or TV – the list is growing!) or share access across friends or family.

It's safe and secure – and with you whenever you need it. All our Mobile Wi-Fi devices come pre-loaded with data, so it's simple to get started. And because it's pay as you go, there are no contracts. Simply buy more data as you need it.

You can also experience superfast 4GEE via 4G SIM (for use in compatible tablets or laptops that have SIM card slots) or a 4G Dongle (for use with laptops). Your data allowance is included in the price of the dongle so you can simply plug in and get online.

PAYG 4G SIM (for use in tablets or laptops that have SIM card slots)

4G SIM - £15, complete with 2GB worth of pre-loaded data for 30 days.

PAYG 4G Dongle (plug in to compatible devices)

Alcatel L800 USB Dongle - £50, complete with 2GB worth of pre-loaded data for 30 days. At launch you can get 6GB for the same price as 2GB.

PAYG Mobile Wi-Fi Device

Alcatel Y800 Mobile - £70, complete with 2GB worth of pre-loaded data for 30 days. At launch you can get 6GB for the same price as 2GB.

STAY IN CONTROL OF YOUR SPEND

When your data runs out, you'll be directed to an EE page in your web browser so you can top up your data – it's really quick and easy. You're always in control of what you're spending because when your data expires it's quick and simple to buy a new data add-on. We have a range of data add-ons available so you can choose how much data you need or how much you want to spend.

BY DAY, OR BY MONTH

You can choose whether to buy your data by day, or by month – it's up to you. No matter how much you choose to buy you'll never spend more than you think as you're buying in advance. Just top up and choose the data add-on that is best for you.

DATA ADD-ON	ALLOWANCE	EXPIRY
£3	500MB	1 Day
£15	2GB	30 Days
£20	4GB	30 Days
£30	10GB	30 Days

1. 4GEE & standard broadband comparison: Claim based on average speeds of 12-15 MBPS in 2013 (source: EE data) compared to the average speed of 12 MBPS on ADSL broadband across the UK (source: most recent Ofcom broadband speed survey).

2. Connects up to 10 devices. Signal range up to 10m. The more devices you have connected at the same time, the slower your internet connection will be on each device.
